### **Reasons for allowance**

The following is an examiner's statement of reasons for allowance:

The prior art of record failed to further teach or suggest individually or in combination a user configurable universal media processing system. Each independent claim identifies the uniquely distinct features: "wherein at least one of said configurable MPEs is configured to act, at least in part, as a control processing element arranged to control the distribution of digital data between some or all the MPEs, scheduling tasks for the MPEs, and wherein each of the distributed MPES process a selected portion of the digital data in concert with the other MPEs", (as per claims 24, 33 and 39). The above limitations of the present claims invention have not found to be anticipated, suggested or made obvious by the prior art of record, either singularly or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
